Bookshelves

Here you can select several books at the same time and add them all to your own bookshelf in one click.

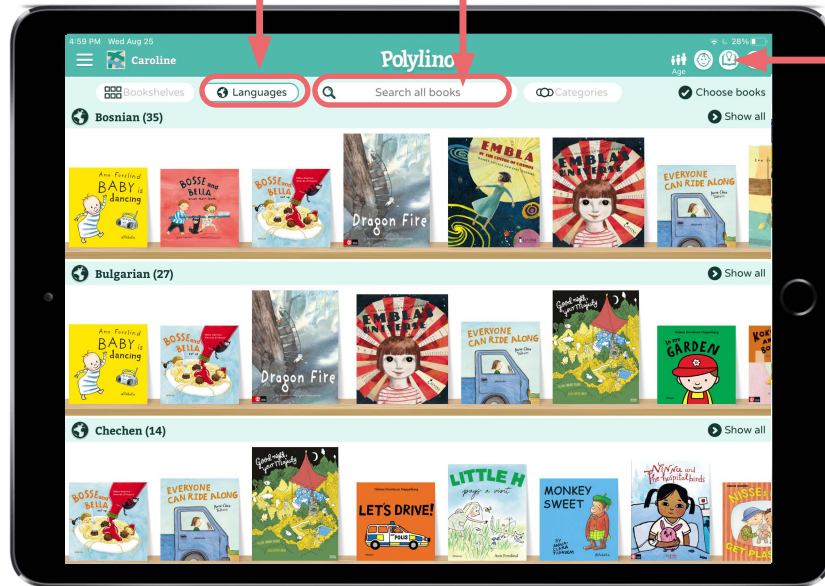

Bookshelves have selected books based on different themes.

Language shelves

Shelves with books sorted based on all available languages. The sound is played directly in the language you select.

Search

Search by title, author, illustrator, language, theme, category, keywords, etc.

Access to the Teacher Guide

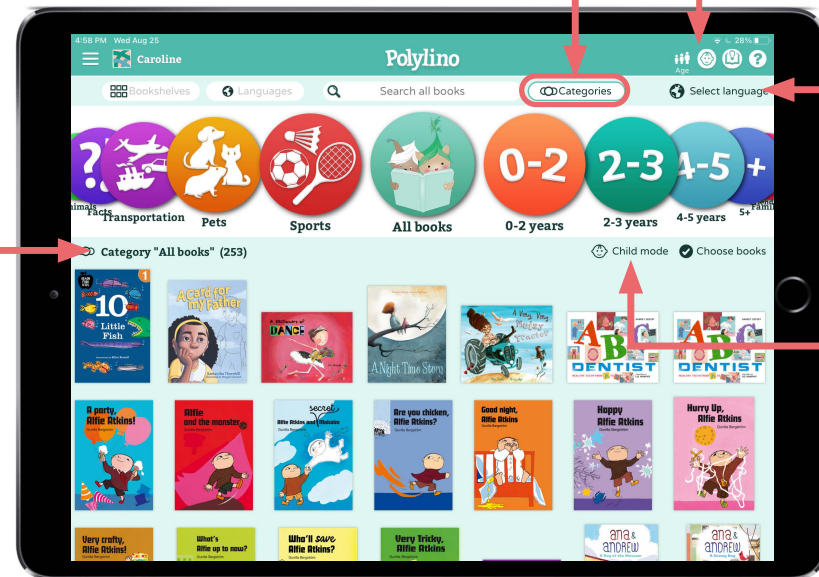

Search result based on all books.

Categories

"Child Mode" reduces the number of functions available for when children use the service.

You can combine your search with a category and / or several languages.

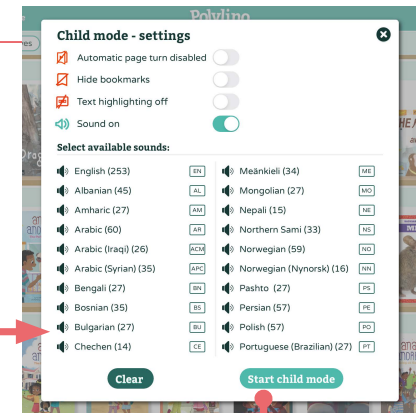

Open your search result in child mode if you so wish.

Download the book to read offline.

Audio settings:
Here you can choose which languages should be available when you open books in child mode. You can also set automatic page turn etc.

Languages you can listen to this book in.

Child mode

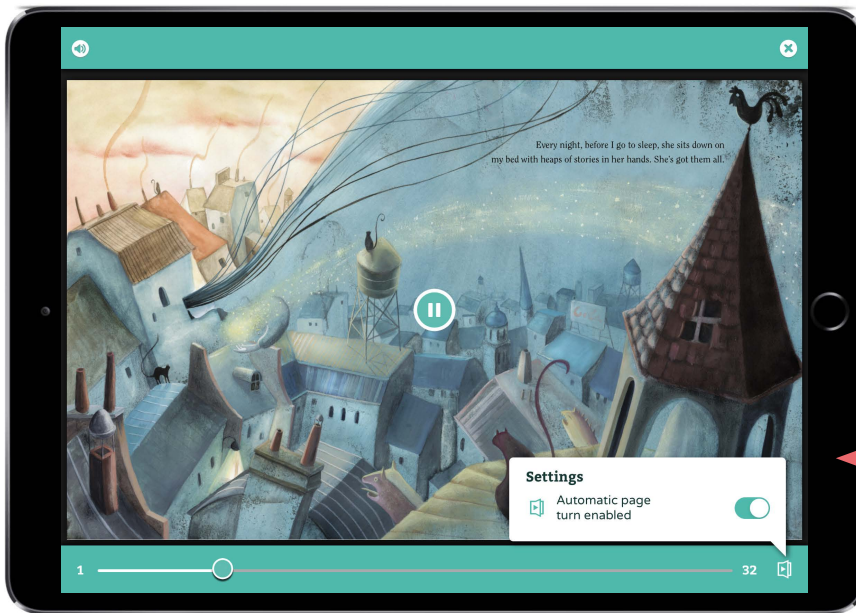

Choose / change language

Mute

Close child mode

i Tip! You can zoom in on the book using your fingers.

**Automatic
page turn**
